

## ICER 2 GO

A unique one-of-a kind product that can be accessed anywhere there is Internet access and Cell Phone signal!

No one wants a disaster to happen but when it does be prepared and get the help you and your loved ones need immediately

### Instructions for Use

1. Purchase ICER-2-GO and install the software. <http://www.ICER-2-GO.com/>
2. Create your medical record by completing a few screens.
3. Then, print your wallet ID like the one in this flyer. Put a copy in your wallet, on your refrigerator and in your glove box... everywhere that emergency responders will look.
4. This will tell first responders how to find your medical records on either a browser-based cell phone or on an Internet connection in the emergency room. **Immediate access to life-saving information.** It's that easy!

Communication when you need it the most—  
a medical emergency

Cell Phones and Emergency Room Computers for EMT's, Doctors, Police and any Emergency personal quickly and easily!

With this Access Card Records are accessed on Cell phones or Computers

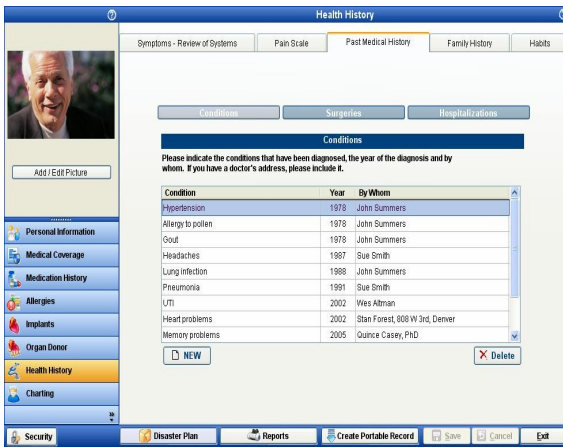

Cell Phones

Your In Case of Emergency Record

### Information is power

Whether it's at the scene of an accident or in your own home, paramedics cannot make assumptions about your condition. They need facts. The purpose of ICER-2-GO is to give them the facts they need immediately... a complete medical history literally at their fingertips.

### Browser-based cell phone

From any cell phone with Internet access, paramedics can access your medical records by logging into the web-site on your medical ID card. The complete medical record appears on the screen.

### Internet access

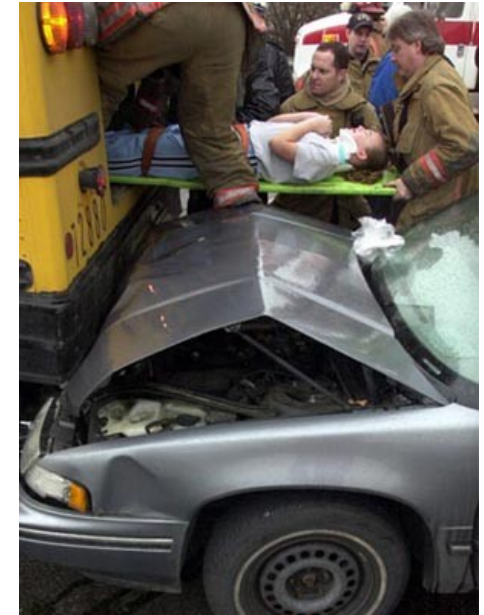

From the hospital emergency room, the doctors and nurses can pull up your medical record and view or print it immediately.

"This medical report is so complete, why doesn't everyone have this?" - ER nurse
